

Adding Doubles Plus Two

Use adding doubles plus 2 strategy and write the sum of each.

Example: $7 + 9$

$$\begin{aligned} 7 + 9 &= 7 + 7 + 2 \\ &= 14 + 2 \\ &= \mathbf{16} \end{aligned}$$

1) $4 + 6 =$

) $5 + 7 =$

4) $2 + 4 =$

) $7 + 9 =$

7) $1 + 3 =$

) $3 + 5 =$

10) Ryan and Mike are collecting quarters, and Mike has

the newly launched do they have in all?

11) Five keys are hung in a key cabinet. If the cabinet can hold 7 more keys, how many keys can it hold in all?
