

Adding Doubles Plus Two

Use adding doubles plus 2 strategy and write the sum of each.

Example: $4 + 6$

$$\begin{aligned} 4 + 6 &= 4 + 4 + 2 \\ &= 8 + 2 \\ &= \mathbf{10} \end{aligned}$$

1) $6 + 8 =$

2) $3 + 5 =$

4) $1 + 3 =$

3) $4 + 6 =$

7) $5 + 7 =$

4) $7 + 9 =$

10) There are 2 eggs in the
does she need in all?

um cake, how many eggs

11) Ed and Ella are driving their way to the woods. Ed drives a distance of 6 miles and asks Ella to drive for the rest of the journey: 8 miles. How many miles did they both drive together?
