

Name : _____

Fact Family - Multiplication & Division

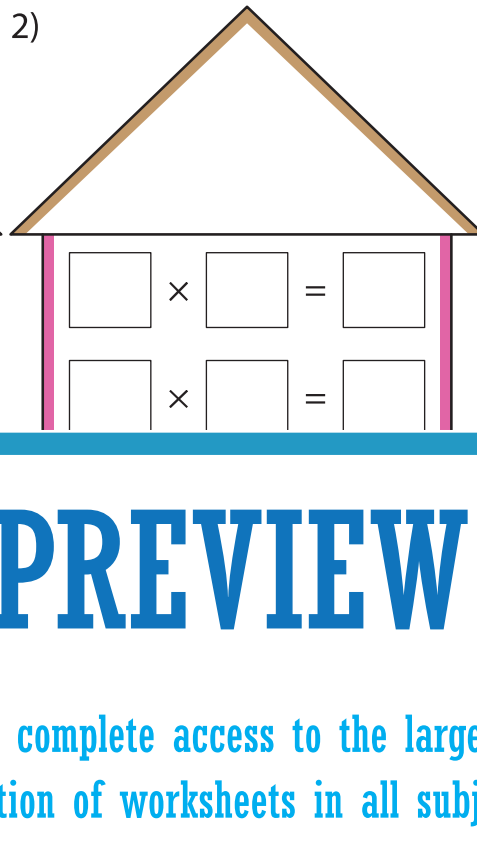

1)

House-shaped worksheet for fact family 1. The roof is a triangle. The main body contains four rows of math problems: two multiplication and two division. Each problem has empty boxes for numbers and an equals sign. The bottom of the house features a pink door, a garden with red tulips, yellow daffodils, and a blue butterfly.

$$\square \times \square = \square$$
$$\square \times \square = \square$$
$$\square \div \square = \square$$
$$\square \div \square = \square$$

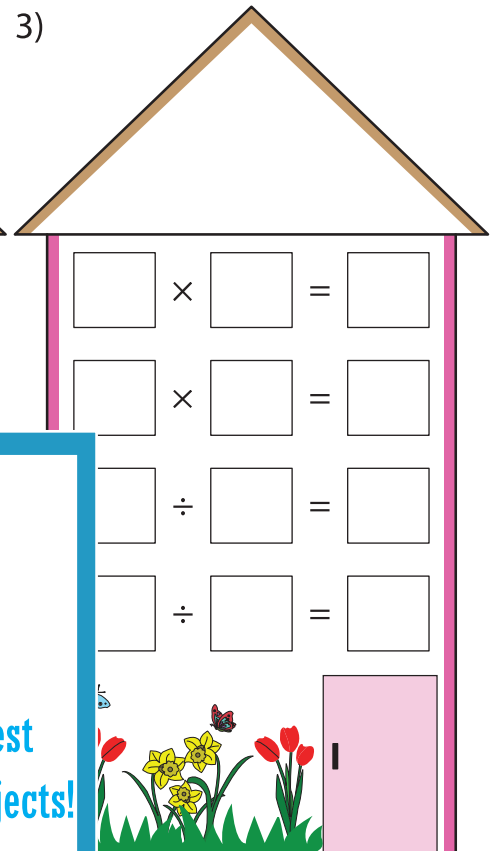

2)

House-shaped worksheet for fact family 2. The roof is a triangle. The main body contains four rows of math problems: two multiplication and two division. Each problem has empty boxes for numbers and an equals sign. The bottom of the house features a pink door, a garden with red tulips, yellow daffodils, and a blue butterfly.

$$\square \times \square = \square$$
$$\square \times \square = \square$$
$$\square \div \square = \square$$
$$\square \div \square = \square$$

3)

House-shaped worksheet for fact family 3. The roof is a triangle. The main body contains four rows of math problems: two multiplication and two division. Each problem has empty boxes for numbers and an equals sign. The bottom of the house features a pink door, a garden with red tulips, yellow daffodils, and a blue butterfly.

$$\square \times \square = \square$$
$$\square \times \square = \square$$
$$\square \div \square = \square$$
$$\square \div \square = \square$$
