

Integers - True or False?

Sheet 1

Read the statements below and label them true or false.

- 1) The product of two negative integers is positive. _____
- 2) The additive inverse of a positive integer is positive. _____
- 3) Zero is a neutral integer. _____
- 4) Two integers that are equidistant from the zero on a number line are called opposite integers. _____
- 5) Whole numbers are integers. _____
- 6) In a number line, positive integers lie to the right of zero and all negative integers lie to the left of zero. _____
- 7) When a negative integer is added to a positive integer, the result is always a positive integer. _____
- 8) Zero is greater than every positive integer. _____
- 9) Negative integers are always greater than positive integers. _____
- 10) Opposite integers have the same absolute value. _____
