Evaluating Expressions

1) Evaluate the following expressions for $p = 8$ and $q = -2$.

   i) $p \div 4 \times q$

   ii) $q \times (-15)$

   iii) $(-14) \times p \div 8$

2) Evaluate the fo $w = -11$.

   i) $w \times (-12) \div$

   iii) $u \div v \times 5$

3) Evaluate the fo

   i) $s \times t \times 9$

   iii) $15 \div s$

4) Evaluate the following expressions for $f = -7$, $g = -12$, and $h = 13$.

   i) $f \times g \div h$

   ii) $g \times (-14) \div f$

   iii) $h \div f \times 7 \times 3$
