

Multiplication - Ice Skating Rink

1) Gina Newman enrolled in the Hoop Academy. She attended 12 sessions and spent 120 minutes in all. How many minutes did she spend in each session?

2) The Hoop Academy charges \$15 per session. If Gina and 11 other children each attended 1 session, how much money did the academy receive?

3) Gina's brother, Hugo, rented a pair of ice skates from the Hoop Academy and rented them for 3 hours. If the rental fee is \$15 per hour, how much did he have to pay toward the rental?

4) Gina's big sister, Sasha is practicing for an inter-school skating championship at the Hoop Academy. If she puts in 3 hours of practice over 16 days, how many hours in all did she spend on her practice sessions?

5) Mr. Newman enrolls as part of a 6 member team in the Adult Ice Hockey League at the Hoop Academy. If each member has to pay \$500 toward registration, how much did Mr. Newman's team have to pay in all?
