

Name : \_\_\_\_\_

## Area of a Quadrilateral

Find the area of each shape. Round your answer to two decimal places.

1)

$PQ = 39 \text{ ft}$  ;  $PS = 4 \text{ yd}$

Area = \_\_\_\_\_  $\text{ft}^2$

2)

3)

$TV = 9 \text{ ft}$  ;  $UW = 2 \text{ yd}$

Area = \_\_\_\_\_  $\text{yd}^2$

4)

$XZ = 1 \text{ yd}$  ;  $YW = 28 \text{ in}$

Area = \_\_\_\_\_  $\text{in}^2$
