

Name : _____

Perimeter of a Trapezoid

Find the missing side length of each trapezoid.

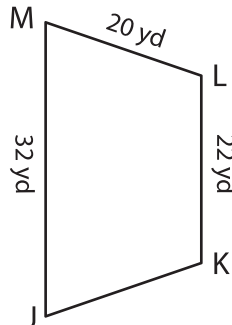

1)

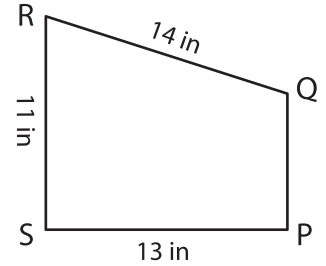

Perimeter = 22 ft

BC = _____

2)

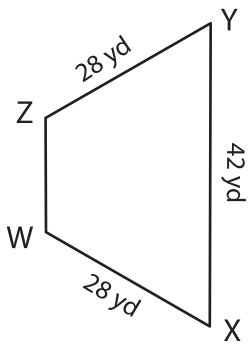

3)

Perimeter = 46 in

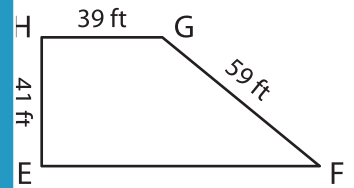

QP = _____

4)

Perimeter = 121 yd

WZ = _____

Perimeter = 207 ft

EF = _____

7) The perimeter of a trapezoid is 103 feet. One of the parallel bases is 49 feet and 10 yards, find the length of the missing side.

8) The legs of a trapezoid measure 24 feet and 12 feet. One of the parallel bases measures 49 feet. Determine the other base, if the perimeter of the trapezoid is 103 feet.
