Sheet 2

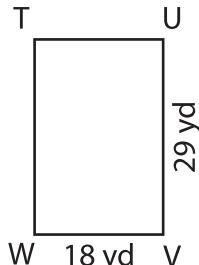

## Sides of a Rectangle

Find the length of the remaining sides of each rectangle.

1)

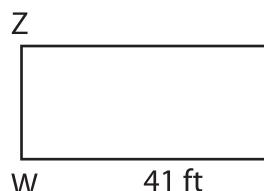

2)

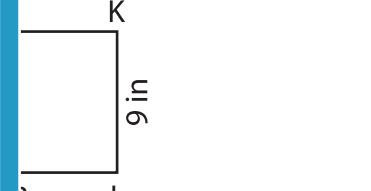

$$EF = \underline{\hspace{2cm}} ; EH = \underline{\hspace{2cm}}$$

$$TW = \underline{\hspace{2cm}} ; TU = \underline{\hspace{2cm}}$$

3)

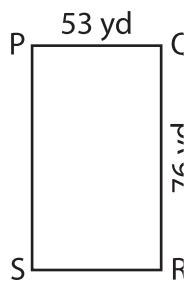

$$WZ = \underline{\hspace{2cm}} ; ZY = \underline{\hspace{2cm}}$$

$$KL = \underline{\hspace{2cm}} ; MN = \underline{\hspace{2cm}}$$

5)

$$PS = \underline{\hspace{2cm}} ; RS = \underline{\hspace{2cm}}$$

$$AD = \underline{\hspace{2cm}} ; CD = \underline{\hspace{2cm}}$$

- 7) In a rectangle CDEF, the lengths of  $\overline{CD}$  and  $\overline{CF}$  are 35 inches and 25 inches respectively. Find DE and EF.
