

Name : _____

Volume - Triangular Pyramid

Integers: S3

Find the volume of each triangular pyramid. Round your answer to two decimal places.

1) Base Area = 113 yd^2

Volume = _____

2) Base Area = 65 ft^2

Volume = _____

3) Base Area = 74 in^2

4) Base Area = 92 ft^2

Volume = _____

Base Area = 58 yd^2

Volume = _____

7) A triangular pyramid has a base area of 100 ft^2 and a height of 12 ft . Round your answer to two decimal places.

8) The height of a triangular pyramid is 24 feet. Find the volume, if its base area is 100 square feet.
