Name : _____

Volume - Cube

A) Find the volume of each cube.

1)

$1\frac{1}{7}$ in

Volume = _____

2)

$\frac{9}{4}$ ft

3)

$\frac{3}{8}$ yd
lume = _____

B) Find the volume

4) side length = $\frac{5}{6}$ in

Volume = _____

6) side length = $2\frac{1}{3}$ yd

Volume = _____

h = $\frac{1}{9}$ ft

h = $\frac{9}{5}$ in

Volume = _____

8) Shawn pieces a large cube together from 25 metal cubes. The side length of each metal cube is $\frac{3}{5}$ inches. Find the volume of the large cube thus formed.

_____
