Name : _____

Area of a Triangle

A) Find the area of each triangle.

1)

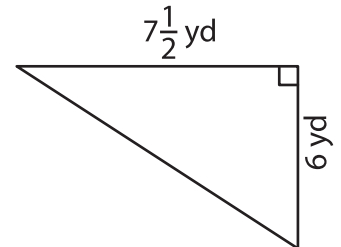

$\frac{3}{8}$ in $\frac{8}{9}$ in

Area = _____

2)

$3\frac{3}{7}$ ft

$5\frac{2}{3}$ ft

3)

$7\frac{1}{2}$ yd

6 yd
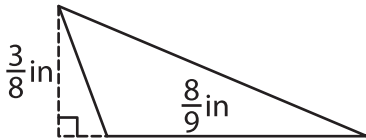

Area = _____

B) Find the area of each tri

4) base = $\frac{6}{7}$ yd , height =

Area = _____

6) base = $4\frac{4}{5}$ in , height =

Area = _____

8) The base of a triangle is

_____

9) Find the area of the triangle whose base is $6\frac{3}{5}$ inches and height is $4\frac{1}{6}$ inches.

_____

14 ft

yd

is $\frac{7}{12}$ foot?
